active & rounded social & physical activity during week. The sports women teams from different C of C clubs met & had a 1st. day of competition.

We had a church choir of which Lloyd Piper was conductor & Lena Evans organist. Yes. we used the organ ^{2 Pianos} to good effect. Other musical instruments add to special occasions - such as anniversaries.

There was "Harvies Aid" or "Dorcas" Night & beginning ladies met for fellowship, spiritual growth & service - sewing done for Boys Home, mission boxes & any other need arising - & to provide service as & when needed.

She jumped ahead a bit & have not mentioned / early minutes. My 25 yrs is covered by 3 golly men J. R. Leach came to us after returning from India. It was during a visit to life to the Lord accepting His salvation, was baptized & set on a life of learning to know God.

Wh. Evans followed him. In those days the 7 had an evangelical mission about each 2 yrs I think. You will see action & history of Vowles Mission 1932. tent & when a big masquerade was erected & used to good effect to draw non-Christians to hear. R. H. Arnold a young & active man loved by young & old for his many farcical minutes & was at the time the block where a tennis

coast had been beside the chapel was used to erect the Mausoleum.

In these years I don't believe any of these ministers ran a car — Roy undoubtedly covered many miles in pastoral visitation on his push bike.

Doubtless there are many aspects I have not covered but I don't want to risk spoiling your interest in our history as after my 25 yrs cover there remain another 50 yrs to today.

However, my richest blessings have been from God through the work & witness of so many who have served Him here. Those ministers, missionaries, Sunday School teachers, CE leaders and my loving christian parents. It was here too I met Roy who with similar training & commitment to the Lord has been such a blessing in my life.

THANK YOU LORD.
